Weather Key Points

Regional Operations Center

Western Region

Saturday, August 27

- Elevated to locally critical fire weather conditions will be seen across far northeastern California this afternoon and evening, mainly across Modoc and Lassen Counties as breezy conditions continue
- Outside of those areas, elevated fire weather conditions are expected across many mountain and foothill locations across the state each afternoon through next week as winds remain locally breezy
- Much cooler temperatures will be seen statewide through the weekend and on Monday, before hotter conditions return for the middle and latter portions of next week, when moderate to locally high heat risk impacts will redevelop
- Mainly dry weather is also expected statewide through next week, though isolated light showers may be possible at times in the Sierra and along the immediate coastline

Precipitation Forecast

Regional Operations Center

Western Region

Saturday, August 27

No significant precipitation is expected through Monday

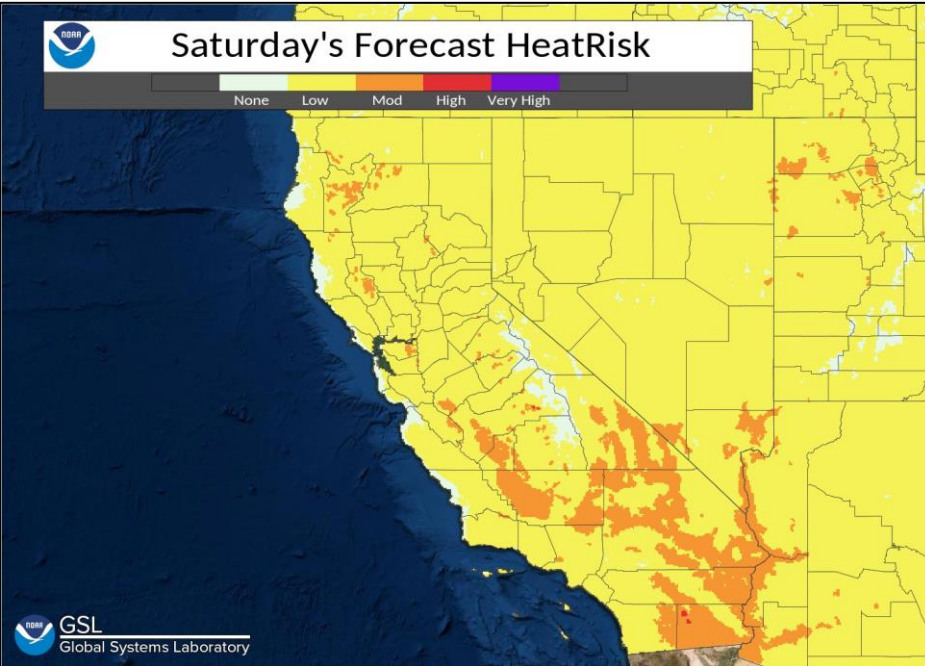

Important Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms will produce locally much higher rainfall amounts.
